

PROLOGUE – THE BEGINNING

(Guidance and Industry Interaction)

Objective

The orientation program has been designed to familiarize fresh batch of students with learning processes followed at Mulshi Institute of Technology and Research (MITR). The three days' extensive program, which has a blend of information, interaction and entertainment, is indeed to condition the students with learning habits needed for pursuing education in engineering institute. It provides them an insight as to “what an industry is?”, triggers the enthusiasm and assert them to know that “MITR” is the best option so that they start their learning process at MITR with best spirits.
